Art Unit: 1616

Claims 1-8 are pending.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 1 is drawn to a method of stabilizing cyclopropane compound
 - II. Claims 2-4, drawn to cyclopropane compound, classified in class 568, subclass 608, 648, 656 and various; class 564, subclass 564/162 and (various)
 - II. Claims 5-7, drawn to a process to generate the compounds of Formula I, II, III, IV, classified in class 568, subclass (various).
 - IV. Claim 8, drawn to a method of using the compounds, classified in class 504, subclass (various).

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of group I and II-IV are related as process of making and process of using the product. The use as claimed cannot be practiced with a materially different product. Since the product is not allowable, restriction is proper between said method of making and method of using. The product claim will be examined along with the elected invention (MPEP § 806.05(i)).
3. The classes and subclasses of cyclopropane compounds depend on the substituent attached to the ring. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II-IV, restriction for examination purposes as indicated is proper. It would be a burden on the Examiner to search all the inventions as claimed.

Art Unit: 1616

4. A telephone call was made to Attorney Stephen T. Falk on 9/30/05 to request an oral election to the above restriction requirement. Mr. Falk told the Examiner that Attorney Thomas Rogerson is handling this case. Mr. Rogerson has requested to send in writing.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143). Applicant is requested to elect a species from the elected group for the search purposes.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sabiha Qazi whose telephone number is (571) 272-0622. The examiner can normally be reached on any business day.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Kunz can be reached on (571) 272-0887. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
